

camera.getLivePreview

Returns a continuous video stream with the resolution specified by `previewFormat` in [Options](#)

(<https://developers.google.com/streetview/open-spherical-camera/reference/options?hl=zh-cn>). This command should return, "Content-Type: multipart/x-mixed-replace; boundary="---osclivepreview---"". **This command was added in API level 2.**

Parameters

- This command has no parameter in request body.

Results

- A continuous video stream with frames separated by the boundary separator.

Errors

- **disabledCommand:** Command is currently disabled; for example, the camera is shooting a video.
- **invalidParameterName:** The input parameter name is unrecognized.

Command I/O

Command Input	none	 
Command Output	Continuous video stream.	 
Command Output (Error)	<pre>{ "error": { "code": "disabledCommand", "message": "Command is currently disabled." } }</pre>
